1. Aims

This policy aims to set out the school's approach to the operation, management and usage of surveillance and closed-circuit television (CCTV) systems on school property.

1.1 Statement of intent

The purpose of the CCTV system is to:

- Make members of the school community feel safe
- Protect members of the school community from harm to themselves or to their property
- Deter criminality in the school
- Protect school assets and buildings

- Assist police to deter and detect crime
- Determine the cause of accidents
- Assist in the effective resolution of any disputes which may arise in the course of disciplinary and grievance proceedings
- To assist in the defense of any litigation proceedings

The CCTV system will not be used to:

- Encroach on an individual's right to privacy
- Monitor people in spaces where they have a heightened expectation of privacy (including toilets and changing rooms)
- Follow particular individuals, unless there is an ongoing emergency incident occurring
- Pursue any other purposes than the ones stated above

The list of uses of CCTV is not exhaustive and other purposes may be or become relevant.

The CCTV system is registered with the Information Commissioner under the terms of the Data Protection Act 2018. The system complies with the requirements of the Data Protection Act 2018 and the UK GDPR.

Footage or any information gleaned through the CCTV system will never be used for commercial purposes.

In the unlikely event that the police request that CCTV footage be released to the media, the request will only be complied with when written authority has been provided by the police, and only to assist in the investigation of a specific crime.

The footage generated by the system should be of good enough quality to be of use to the police or the court in identifying suspects.

2. Relevant legislation and guidance

This policy is based on:

2.1 Legislation

- [UK General Data Protection Regulation](#)
- [Data Protection Act 2018](#)
- [Human Rights Act 1998](#)
- [European Convention on Human Rights](#)
- [The Regulation of Investigatory Powers Act 2000](#)
- [The Protection of Freedoms Act 2012](#)
- [The Education \(Pupil Information\) \(England\) Regulations 2005 \(as amended in 2016\)](#)
- [The Freedom of Information and Data Protection \(Appropriate Limit and Fees\) Regulations 2004](#)
- [The School Standards and Framework Act 1998](#)
- [The Children Act 1989](#)
- [The Children Act 2004](#)
- [The Equality Act 2010](#)

2.2 Guidance

➤ [Surveillance Camera Code of Practice \(2021\)](#)

3. Definitions

Surveillance: the act of watching a person or a place

CCTV: closed circuit television; video cameras used for surveillance

Covert surveillance: operation of cameras in a place where people have not been made aware they are under surveillance

4. Covert surveillance

Covert surveillance will only be used in extreme circumstances, such as where there is suspicion of a criminal offence. If the situation arises where covert surveillance is needed (such as following police advice for the prevention or detection of crime or where there is a risk to public safety), a data protection impact assessment will be completed in order to comply with data protection law.

Additionally, the proper authorisation forms from the Home Office will be completed and retained where necessary.

5. Location of the cameras

Cameras are located in places that require monitoring in order to achieve the aims of the CCTV system (stated in section 1.1). The CCTV system is comprised of 41 cameras, which record day and night covering the internal and external areas of the school. The coverage also extends past the school boundaries to public areas (namely to the main gate access to street view).

Cameras will be placed so they only capture footage relevant for the purposes for which they are installed, and all care will be taken to ensure that reasonable privacy expectations are not violated.

CCTV is not sited in classrooms except in exceptional circumstances.

Members of staff on request can access details of CCTV camera locations.

Wherever cameras are installed appropriate signage is in place to warn members of the school community that they are under surveillance. The signage:

- Identifies the school as the operator of the CCTV system
- Identifies the school as the data controller
- Provides contact details for the school

Cameras are positioned in order to maximise coverage, but there is no guarantee that all incidents will be captured on camera.

6. Roles and responsibilities

6.1 The governing board

The governing board has the ultimate responsibility for ensuring the CCTV system is operated within the parameters of this policy and that the relevant legislation (defined in section 2.1) is complied with.

6.2 The headteacher

The headteacher will:

- Take responsibility for all day-to-day leadership and management of the CCTV system
- Liaise with the data protection officer (DPO) to ensure that the use of the CCTV system is in accordance with the stated aims and that its use is needed and justified
- Ensure that the guidance set out in this policy is followed by all staff

- Review the CCTV policy to check that the school is compliant with legislation
- Ensure all persons with authorisation to access the CCTV system and footage have received proper training from the DPO in the use of the system and in data protection
- Sign off on any expansion or upgrading to the CCTV system, after having taken advice from the DPO and having taken into account the result of a data protection impact assessment
- Decide, in consultation with the DPO, whether to comply with disclosure of footage requests from third parties

6.3 The data protection officer (DPO)

The DPO will:

- Train persons with authorisation to access the CCTV system and footage in the use of the system and in data protection
- Train all staff to recognise a subject access request
- Deal with subject access requests in line with the UK GDPR and Data Protection Act 2018
- Monitor compliance with UK data protection law
- Advise on and assist the school with carrying out data protection impact assessments
- Act as a point of contact for communications from the Information Commissioner's Office (ICO)
- Conduct data protection impact assessments
- Ensure data is handled in accordance with data protection legislation
- Ensure footage is obtained in a legal, fair and transparent manner
- Ensure footage is destroyed when it falls out of the retention period
- Keep accurate records of all data processing activities and make the records public on request
- Inform subjects of how footage of them will be used by the school, what their rights are, and how the school will endeavour to protect their personal information
- Ensure that the CCTV systems are working properly and that the footage they produce is of high quality so that individuals pictured in the footage can be identified
- Ensure that the CCTV system is not infringing on any individual's reasonable right to privacy in public spaces
- Carry out annual checks to determine whether footage is being stored accurately, and being deleted after the retention period
- Receive and consider requests for third-party access to CCTV footage

6.4 The system manager

The system manager will:

- Take care of the day-to-day maintenance and operation of the CCTV system
- Oversee the security of the CCTV system and footage
- Check the system for faults and security flaws
- Ensure the data and time stamps are accurate

7. Operation of the CCTV system

The CCTV system will be operational 24 hours a day, 365 days a year.

The system is registered with the Information Commissioner's Office.

The system will not record audio.

Recordings will have date and time stamps. This will be checked by the system manager termly and when the clocks change.

8. Storage of CCTV footage

Footage will be retained for 30 day. At the end of the retention period, the files will be overwritten automatically.

On occasion footage may be retained for longer than 30 days, for example where a law enforcement body is investigating a crime, to give them the opportunity to view the images as part of an active investigation.

Recordings will be downloaded and encrypted, so that the data will be secure and its integrity maintained, so that it can be used as evidence if required.

9. Access to CCTV footage

The ability to view live and historical CCTV footage is only to be provided at designated locations and by authorised persons for the purpose of pursuing the aims stated in Section 4.

Specific live monitoring is limited to: Two Office Administration Staff and the Premises Manager.

Direct Access to recorded footage is limited to the Headteacher, Business Manager and Premise Manager. **Only in exceptional circumstances would any other individuals be allowed to view footage. The reasons and details for these circumstances would be recorded at the time such a decision is made.**

9.1 Staff access

The following members of staff have authorisation to access the CCTV footage:

- The headteacher: Asif Bhatti
- The School Business Manager: Vicki Prince
- Premises Manager: Ayo Oyewusi
- The DPO: David Coy
- The system manager: Matt Pope
- Data & Resources Assistant: Jacquie Banthorpe
- Anyone with express permission of the headteacher

CCTV footage will only be accessed from authorised personnel's work devices, or from the visual display monitors.

All members of staff who have access will undergo training to ensure proper handling of the system and footage.

Any member of staff who misuses the surveillance system may be committing a criminal offence, and will face disciplinary action.

9.2 Subject access requests (SAR)

According to the UK GDPR and Data Protection Act 2018, individuals have the right to request a copy of any CCTV footage of themselves.

Upon receiving SAR the school will immediately issue a receipt and will then respond within 1 calendar month.

All staff have received training to recognise SARs. When a SAR is received staff should inform the DPO in writing. When making a request, individuals should provide the school with reasonable information such as the date, time and location the footage was taken to aid school staff in locating the footage.

If the footage contains images of other data subjects, then the school will consider whether.

- The request requires the disclosure of the images of data subjects other than the requester, and whether these additional data subjects can be anonymized in the footage.
- The other individuals in the footage have consented to the disclosure of the images or if their consent could be obtained.
- If not, then whether it is reasonable in the circumstances to disclose those images to the data subject making the request.

The School reserves the right to refuse access to CCTV footage where this would prejudice the legal rights of other data subjects or jeopardise an ongoing investigation.

The school reserves the right to charge a reasonable fee to cover the administrative costs of complying with a SAR that is repetitive, unfounded or excessive.

Footage that is disclosed in a SAR will be disclosed securely to ensure only the intended recipient has access to it.

Records will be kept that show the date of the disclosure, details of who was provided with the information (the name of the person and the organisation they represent), and why they required it.

Individuals wishing to make an SAR can find more information about their rights, the process of making a request, and what to do if they are dissatisfied with the response to the request on the [ICO website](#).

9.3 Third-party access

CCTV footage will only be shared with a third party to further the aims of the CCTV system set out in section 1.1 (e.g. assisting the police in investigating a crime).

Footage will only ever be shared with authorised personnel such as law enforcement agencies or other service providers who reasonably need access to the footage (e.g. investigators).

All requests for access should be set out in writing and sent to the headteacher who may share them with the DPO for assessment.

The school will comply with any court orders that grant access to the CCTV footage. The school will provide the courts with the footage they need without giving them unrestricted access. The DPO will consider very carefully how much footage to disclose, and seek legal advice if necessary.

The DPO will ensure that any disclosures that are made are done in compliance with the UK GDPR.

All disclosures will be recorded by the DPO.

10. Data protection impact assessment (DPIA)

The school follows the principle of privacy by design. Privacy is taken into account during every stage of the deployment of the CCTV system, including its replacement, development and upgrading.

The system is used only for the purpose of fulfilling its aims (stated in section 1.1).

When the CCTV system is replaced, developed or upgraded a DPIA will be carried out to be sure the aim of the system is still justifiable, necessary and proportionate.

The DPO will provide guidance on how to carry out the DPIA. The DPIA will be carried out by the School Business Manager.

Those whose privacy is most likely to be affected, including the school community and neighbouring residents, will be consulted during the DPIA, and any appropriate safeguards will be put in place.

A new DPIA will be done whenever cameras are moved, or new cameras are installed.

If any security risks are identified in the course of the DPIA, the school will address them as soon as possible.

11. Security

- The system manager will be responsible for overseeing the security of the CCTV system and footage

- The system will be checked for faults once a term
- Any faults in the system will be reported as soon as they are detected and repaired as soon as possible, according to the proper procedure
- Footage will be stored securely and encrypted wherever possible
- The CCTV footage will be password protected and any camera operation equipment will be securely locked away when not in use
- Proper cyber security measures will be put in place to protect the footage from cyber attacks
- Any software updates (particularly security updates) published by the equipment's manufacturer that need to be applied, will be applied as soon as possible

12. Complaints

We take any complaints about our collection and use of personal information very seriously.

If you think that our collection or use of personal information is unfair, misleading or inappropriate, or have any other concern about our data processing, please raise this with the school in the first instance via the Data Protection Lead, Mrs V. Prince on sbm@town farm.surrey.sch.uk. This complaint may be assessed by our independent Data Protection Officer, David Coy, with a final response provided within 30 days.

If you are unhappy with the school's final response you can refer the matter to the Information Commissioner's Office:

- Report a concern online at <https://ico.org.uk/concerns/>
- Call 0303 123 1113
- Or write to: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF

13. Monitoring

The policy will be reviewed annually by the DPO to consider whether the continued use of a surveillance camera remains necessary, proportionate and effective in meeting its stated purposes.
